

submitted or postmarked no later than December 2, 1996 in order to be considered. Oral and/or written comments may also be presented at public meetings to be held November 13 at the Courthouse in Price, Utah and November 14 at the Courthouse in Castledale, Utah. Meeting times will be announced through local news media.

ADDRESSES: Written comments on the DEIS should be addressed to: Kate Kitchell, Moab Field Office Manager, Bureau of Land Management, 82 East Dogwood, Moab, Utah, 84532.

FOR FURTHER INFORMATION CONTACT: Daryl Trotter, Project Coordinator, Moab Field Office, Bureau of Land Management, 82 East Dogwood, Moab, Utah, 84532, (801) 259-6111.

SUPPLEMENTARY INFORMATION: The purpose of this EIS is to provide decision makers and the public with information pertaining to River Gas's proposal, and to disclose environmental impacts and identify mitigation measures to reduce impacts.

The DEIS analyzes a proposal by River Gas Corporation of Northport, Alabama, to locate, drill, complete, and produce 601 CBM wells over a 10-year period in an approximately 290-square mile project area in Carbon and Emery Counties, Utah at 160-acre spacing. The proposed action would also include the construction and operation of access roads, gas and water collection pipelines/flowlines, high-pressure delivery pipelines, and electrical utilities within a transportation corridor system accessing all wells.

The DEIS also analyzes four alternatives: (1) Field development at 80-acre spacing; (2) field development at 160-acre and 80-acre spacing, precluding well drilling on Federal mineral estate within boundaries of critical deer and elk winter range; (3) field development at 160-acre and 80-acre spacing, precluding well drilling and operations on Federal mineral estate in security habitat areas (concentration areas) within critical winter range for mule deer and elk; and (4) No Action alternative.

BLM's preferred alternative is field development at 160-acre spacing, precluding well drilling and operations on Federal mineral estate in security habitat areas.

Dated: September 27, 1996.

Kate Kitchell,

Moab Field Office Manager.
